Project Odyssey Updates for Learners

Save the Date! Resident Town Hall – Tues., April 26 at 12pm

Dr. Rob Lloyd, HHS' chief medical information officer, and Dr. Alim Pardhan are hosting a town hall about Epic for residents on Tuesday, April 26

at noon. Topics to be addressed include: training, high impact workflows, mobile devices, computer access/availability, cut over and what to expect at Go-Live.

All residents are strongly encouraged to attend and ask questions. Zoom details to follow. You can ask questions live or submit in advance by clicking the button.

[Submit an EPIC question for Town Hall](#)

Patient Flow Days – April 19 – 21

Patient Flow Days will take place at multiple HHS sites between April 19 – 21. These are in-person, drop-in sessions designed to give staff and physicians a chance to preview and ask questions about some of the most common and complex patient flow scenarios in Epic.

All roles involved in patient flow are encouraged to check out at least one session, but attendance can be especially beneficial for physicians and other providers. This is because in Epic, the majority of patient flow is driven by provider admission, discharge and transfer (ADT) orders. [Review the Patient Flow Days schedule](#) to self-select the sessions that are most relevant to your role.

HHS has provided useful and detailed information for learners in the following areas:

- **In-Class Training Reminders**
- **High Impact Workflow Demo Videos**
- **Other Go-Live Readiness Activities**
